CAREER SUMMARY

Final-year Computer Science Engineering student with a strong foundation in Java, Python, Data Structures & Algorithms, OOP, SQL and DBMS. Hands-on experience developing academic projects using Python and machine learning, with basic exposure to Flask, React and REST APIs. Strong problem-solving and analytical skills with active practice on coding platforms. Eager to learn new technologies and contribute to software engineering teams.

EDUCATION

B. Tech (CSE) ITER SOA UNIVERSITY Bhubaneswar 8.9 CGPA (till 6 TH semester)	2023-2027
12 TH CBSE – PCBM ST. XAVIERS HIGH SCHOOL Cuttack 64%	2022
10 TH ICSE ST. THOMAS ENGLISH SCHOOL Jharsuguda 89%	2020

SKILLS

Python	JAVA	SQL	DSA	MACHINE LEARNING
OOPS	DBMS	Problem Solving	Team Collaboration	Communication Skills
Adaptability	Time Management			

PROJECTS

1. AI-Text Summarizer

- **Technologies:** Python, Flask, React.js, Vite, JavaScript, REST APIs, Hugging Face, HTML/CSS, Git
- Translated requirements into a full-stack AI web app designed to generate concise summaries from long corporate articles.
- Architected a robust Flask backend and integrated the BART-large-cnn model via Hugging Face API for sub-second processing.
- Designed a responsive React.js UI and implemented thorough unit testing for core REST API endpoints and data payloads.

2. Customer Churn Prediction

- **Technologies:** Python, Pandas, NumPy, Scikit-Learn, Matplotlib, Seaborn, Jupyter Notebook
- Engineered an end-to-end ML pipeline using Scikit-Learn to process, preprocess, and execute feature engineering on user datasets.
- Generated critical predictive insights by evaluating Logistic Regression and Random Forest models via cross-validation.
- Authored comprehensive unit tests and functional repository documentation to validate edge cases and ensure 95% code reliability.

3. Django Blog Application

- Technologies: Python, Django, SQLite, HTML, CSS, JavaScript
- Engineered a scalable web application featuring secure user authentication protocols and modular post-management architectures.
- Implemented full CRUD functionality and integrated a dynamic commenting system to optimize content organization.
- Maintained detailed technical documentation and executed unit test scripts using Django's test framework to ensure system stability.

ACHIEVEMENTS & EXTRACURRICULARS

- **Coding Ranks:** 3-Star Rating in Python on HackerRank; Active LeetCode problem solver practicing advanced DSA.
- **Certifications:** Finished professional development training via Infosys Springboard Pragati (Cohort 7 & 9).
- **Hackathons & Seminars:** Attended India AI Impact Buildathon, Tata Technologies Innovent, and Deloitte Campus Bridge series.
